***For Professional DJ***

*Who better than Radio FG could offer to all the DJs the best experience of mix through a specific professional headphones? Into the headphones' jungle, Radio FG decided to get involved with the manufacturer G-CUBE for offering a real answer to all the DJs.*

*With two models (wired and Bluetooth®), Radio FG take by storm the very coveted headphones' market and propose the FG PLAY BT headphone who gather all of what a professional DJ can expect.*

*Style, design, finish, specifications, technology, convenience, in short, the real alternative to achieve all your mix. The result of the cooperation between Radio FG and G-CUBE (USA), the FG PLAY BT is born to satisfy the DJs who are looking for a circum aural closed resistant headphone with an irreproachable sound.*

*Its comfort and its design have been especially studied to answer to the exigencies of a use in club like in studio.*

## **For the DJs**

*The FG PLAY BT offers earphones with a 360° rotation answering to the preview mode or the "on-shoulder" of the DJs.*

*The speakers with ferrous magnets in high performance neodymium of 50 mm reproduce a clarity of sound of high quality as well as rich and deep bass.*

*The FG PLAY BT offers a capacity of 3.000 mW at the input, which avoid any harmonic distortion, even if for sustained sound.*

*The thick capsules of the interchangeable earphones are removable (patent system) in order to give you the best choice of comfort and to avoid any tiredness. The sound isolation OF 80 % is aimed by dense and comfortable earmuffs.*

*Unique, for an intense use, the FG PLAY BT insure an optimal support in any circumstances.*
